Lattice

The banker's add-in for Excel, PowerPoint and Word: linked exports that refresh, keyboard-first formula auditing, model and chart tools, slide hygiene. No licence server, no telemetry.

Excel | PowerPoint | Word

OPEN THE TAB

Alt K in Excel

Alt L in PowerPoint and Word

AUDIT

Ctrl [precedent

Ctrl] dependent

EXPORT

Ctrl Alt R picture to the deck

Lattice SHORTCUTS AND KEYTIPS

Keytips: press Alt, then K in Excel or L in PowerPoint and Word for the Lattice tab, then the letter. Office reserves T, E, I, O, V and D for its legacy menus, and L is Excel's Developer tab. Edit the Excel bindings under Lattice > Shortcuts > Edit; this manual regenerates from that file.

Excel keyboard shortcuts

FORMATTING	
Cycle: Number	Ctrl Alt Shift 1
Cycle: Percent	Ctrl Alt Shift 5
Cycle: Multiple	Ctrl Alt Shift 6
Cycle: Date	Ctrl Alt Shift 3
Cycle: Currency	Ctrl Alt Shift 4
Cycle: Font Color	Ctrl Alt Shift F
Cycle: Fill	Ctrl Alt Shift H
Cycle: Border	Ctrl Alt Shift B

Gridlines Toggle	Ctrl Alt Shift G
Indent More	Ctrl Alt Shift I
Indent Less	Ctrl Alt Shift O
MODELLING	
Cycle: Anchors	Ctrl Alt Shift Q
Flip sign (toggle)	Ctrl Alt Shift N
To Values	Ctrl Alt Shift V
Fast Fill Right	Ctrl Alt Shift R
Fast Fill Down	Ctrl Alt Shift D
IFERROR wrap (toggle)	Ctrl Alt Shift E
AUDITING	
Trace In	Ctrl Alt Shift [
Trace Out	Ctrl Alt Shift]
Formula Flow	Ctrl Alt Shift L
Highlight Hardcodes	Ctrl Alt Shift K
EXPORT	
Copy For PowerPoint Picture	Ctrl Alt Shift P
Copy For PowerPoint Table	Ctrl Alt Shift T
Refresh PowerPoint From Here	Ctrl Alt Shift U
CHARTS	
CAGR cell	Ctrl Alt Shift M
FILE	

Excel keytips and cross-app

EXCEL RIBBON KEYTIPS (ALT, K, THEN THE LETTER)	
Save + Backup	Alt K B
Optimize workbook	Alt K O
Share menu	Alt K H
AutoColor	Alt K A
Black Fonts switch	Alt K Z
Format menu (Color / Number / Border / Alignment / Font / Case)	Alt K F
Formulas menu (anchors, flip, IFERROR, fast fill, case drop-down)	Alt K U
Charts menu (football field, waterfall, CAGR, chart annotations)	Alt K C
Library (LBO, DCF, waterfall, run cases, ...)	Alt K L
Model Check pane	Alt K M
Trace In window	Alt K P
Visualize menu	Alt K V
Comps stats rows	Alt K S
Export to PowerPoint	Alt K E
Export to Word	Alt K W
Refresh deck / document	Alt K R
Shortcut card	Alt K K
Settings	Alt K G
FROM EXCEL INTO POWERPOINT / WORD	
Export selection as picture to PowerPoint (replaces the selected shape with Match Size)	Ctrl Alt Shift R
Export as editable table	Ctrl Alt Shift T
Export chart	Ctrl Alt Shift C
Export picture to Word	Ctrl Alt Shift W
Refresh the open deck from Excel	Ctrl Alt Shift U
INSIDE THE TRACE IN / TRACE OUT WINDOW	
Move: Excel follows the highlighted reference	Up or Down
Expand a reference into its own inputs	Right
Collapse, or go to the parent	Left

Save Backup	Ctrl Alt Shift S
EXPORT (ADDED)	
Send to PowerPoint Picture	Ctrl Alt Shift R
Send to PowerPoint Table	Ctrl Alt Shift T
Send to PowerPoint Chart	Ctrl Alt Shift C
Send to Word Picture	Ctrl Alt Shift W
NAVIGATION (ADDED)	
Go Precedent	Ctrl Alt Shift [
Go Dependent	Ctrl Alt Shift]
Go back (after a jump)	Ctrl Alt Shift ENTER
Black Toggle	Ctrl Alt Shift Z

Go to the cell and close the window (then F2)	Enter
Go, close and start editing	F2
Toggle value / formula columns	Ctrl E
Close	Esc

PowerPoint keytips

PRESENTATION	
New deck from template	Alt L N
Agenda (sections, dividers, TOC)	Alt L G
Pagination	Alt L P
Deck Check	Alt L K
Deck Tools (fonts, tables, charts, notes, conform titles)	Alt L D
INSERT	
Slide Library / Slide Links	Alt L B
Stickers (lights, tick / cross, Harvey cycle, stamps)	Alt L J
Turbo Shapes	Alt L U
Master Shapes	Alt L M
COLOR AND TEXT	
Color Tools	Alt L C
Styles	Alt L Y
Select Match	Alt L S
Arrange Shapes (grid, container, stack, Auto Align, body area)	Alt L W
SHAPES	
Align left / centre / right	Alt L 1 or 2 or 3
Align top / middle / bottom	Alt L 4 or 5 or 6
Distribute horizontally / vertically	Alt L 7 or 8
Same width / height / size	Alt L 9 or 0 or Q
IMPORT AND LINKS	
Import Excel selection (fonts forced black)	Alt L I
Link Text	Alt L T
Refresh only the selected item (also right-click > Lattice)	Alt L R
Explorer Pane	Alt L X

Word keytips

WORD	
Import Excel selection	Alt L E
Refresh selection	Alt L R
Links list	Alt L L
Airplane Mode	Alt L A
Shortcut card	Alt L K

> Everything in the tab also works with the mouse; keytips are the fast path. Right-click a linked picture or table in PowerPoint for Refresh this item, Go to source, Conform and Break link.

Highlight Links	Alt L H
Airplane Mode	Alt L A
Settings	Alt L O

What each group does

Excel

- **Workbook**: Save + Backup, Optimize (used ranges, broken names, unused styles), Share (values, PNG, health report).
- **Color**: AutoColor (blue inputs, black formulas, green links, purple external, dark red embedded hard-codes), font / fill / border cycles, Black Fonts switch.
- **Model**: format cascades; formulas ($ anchors, flip and IFERROR toggles, values, fast fill, exact paste, bare case drop-down); charts (football field, stacked + totals, waterfall, CAGR, growth rows, **chart annotations**: live totals, CAGR arrow, difference arrow); library (LBO, DCF, distribution waterfall, accretion / dilution, returns, debt, credit stats, Black-Scholes, sensitivity, scenario switch, timeline, **run cases** scenario table); cells, sheets, view.
- **Audit**: Model Check pane and report, Trace In / Out windows, Ctrl+ [/] jumps, Visualize (hard-codes, inconsistent formulas, errors).
- **Comps**: stats rows, comps formatter, rank / percentile, outliers.
- **Export**: to PowerPoint (picture, table, chart, native chart, embedded workbook) and Word; Match Width / Height / Size; Refresh deck.

PowerPoint

- **Presentation**: template, backup, PDF, email, Agenda and section sync, Pagination, Deck Check, Deck Tools (harmonize / conform fonts, table formats, chart palette, notes, per-section PDFs).
- **Insert**: Slide Library with Slide Links, **Stickers** (traffic lights, tick / cross, Harvey cycling, DRAFT-style stamps), Turbo Shapes, Master Shapes.
- **Color / Text**: cycles, hex and theme colours, format painter, Styles, text tools, Select Match, Arrange Shapes.
- **Shapes**: align to first shape or slide, distribute, gaps, same size, stretch, swap, remember / apply position, z-order, convert to picture.
- **Import / Links**: Excel import with black fonts, Link Text, Match Size, Refresh (item / slide / deck), Explorer Pane, Highlight Links, Airplane Mode, V1 / V2 refresh prompt, go to source, change source, break link.

Word

- Import from Excel as picture (black fonts) or table, refresh selection / document, links list, go to source, break link.
- Document tools: strip double spaces, autofit tables, fit pictures to width, black fonts toggle.
